Madrid, January 20th, 2012

During the 16th and 17th February 2012, we will have the 13a Jornadas de Conservación de Arte Contemporáneo del Grupo Español del IIC (GEIIC) at the MNCARS.

During these two days we expect the participation of more than 450 people from Spain, Portugal, Argentina, Brasil, México, Canadá, Denmark, USA, Italy, etc. to share more than 17 conferences, 16 Posters and professional news.

As part of the Iberoamerican Network for Conservation of Contemporary Art (Red Iberoamericana de Conservación de Arte Contemporáneo RICAC) and the INCCA Iberoamerican Group we will have a work day meeting for countries coordinators, and coordinators of Reseach Group, during the Saturday 18th February.

During this day, we will discuss the focus, timing, the people involved and some questions about the Reseach Groups in order to achieve some conclusions to share through the INCCA Iberoamerica Group at INCCA.org website.

As usually, the conclusions and much more information shared during these days will be distributed using www.yutzu.com (see comments about Yutzu in attachment), and in a resume at the INCCA Iberoamerican Group.

For further information, I'm sending the Calendar of the meeting, or please contact to:
arianne.vanrell @ museoreinasofia.es

Kind regards,

Arianne Vanrell Vellosillo
Coordinadora de la Red iberoamericana para la Conservación del Arte Contemporáneo
